

**SCCI**

**Capabilities Presentation**

# Corporate Profile

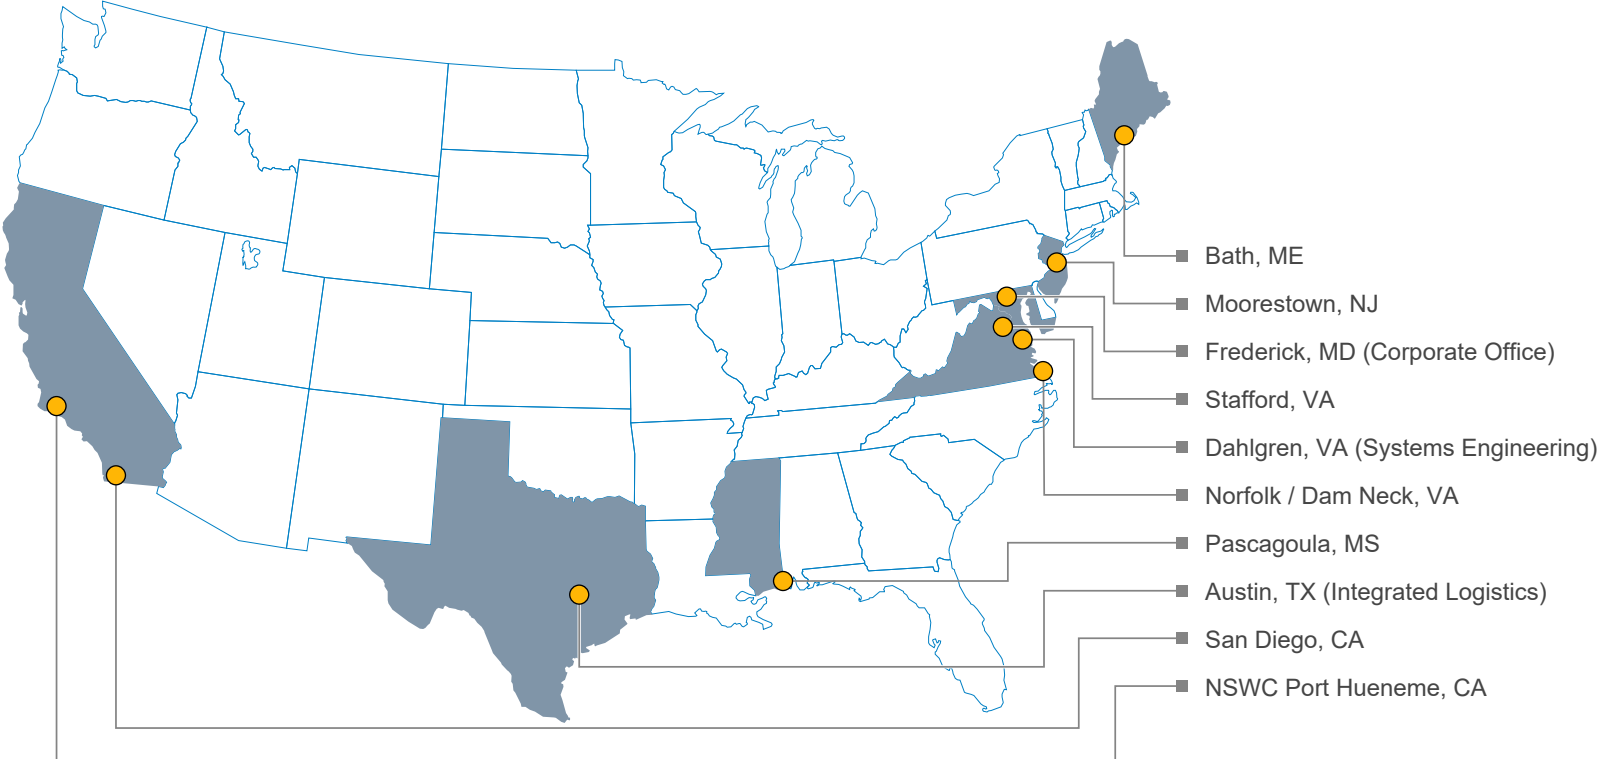

- Established in 1977
- Small Business (FAR subpart 19.001)
- Over 300 Professional Staff Members

- DUNS Number - 094744138
- Cage Code - 1W582
- Primary NAICS  
(541330, 541511, 541512, 541513, 541519)

# Office Locations

## Company Locations

- **Naval Sea Systems Command (NAVSEA)**
  - Naval Surface Warfare Center Dahlgren Division (NSWCDD)
    - Warfare Systems (A, B, H, E, V & R) Departments
  - Naval Surface Warfare Center Port Hueneme Division (NSWCPHD)
    - Littoral and Strike Warfare Department
  - PEO Integrated Warfare Systems (IWS)
- **Naval Air Systems Command (NAVAIR)**
  - PEO (U&W) Unmanned Aviation & Strike Weapons
    - Tomahawk Weapon System (PMA-280)
    - Naval Air Warfare Center - Training Support Division (NAWC-TSD)
- **Project Manager Mission Command (PMMC)**
  - Program Executive Office Command Control Communications-Tactical (PEOC3T)
    - Command Post Computing Environment
    - Fire Support Command and Control
    - Joint Battle Command-Platform
    - Strategic Mission Command
    - Tactical Digital Media
    - Tactical Mission Command

- **Naval Education and Training Command (NETC)**
  - Naval Personnel Development Command (NPDC)
    - Center for Surface Combat Systems (CSCS)
- **Space and Naval Warfare Systems Command (SPAWAR)**
  - Command and Control Systems (PMW150)
- **Marine Corps Systems Command (MARCORSYSCOM)**
  - PEO Land Systems (ILS)
  - SIAT Division (Systems Engineering, Interoperability, Architectures, and Technologies)
  - PMO-MC3
- **State of Texas**
  - Department of Information Resources (DIR)
  - Department of State Health Services

- **Engineering and Technology**
  - Systems Engineering
  - Configuration Management
  - Information Assurance Services
  - Information Management Systems
  
- **Integrated Logistics Services**
  - Instructor Led Training
  - Interactive Multimedia Instruction
  - Interactive Electronic Technical Manuals

# Qualifying Experience Engineering and Technology

Products / Services	Years	Programs
Systems Engineering	40	11
Configuration Management	20	14
Information Assurance Services	19	30
Information Management Systems	20	20

- **Requirements**

- Perform requirements assessments, analyze system architecture, system behavioral modeling, functional analysis, functional flows, functional description, and system interfaces and interoperability
- Generate, update, and maintain Integrated Master Schedules (IMSs) for the supported programs

- **Design Engineering**

- Analysis, refinement, and development of mathematical algorithms and software tools develop hardware and software designs
- Generate and deliver design data for design models, drawings, specifications, and interface control documents to support engineering decisions.

- **Testing**

- Engineering studies, plans, and related documents to include trade-off assignments, test or exercise plans and reports, and performance and effectiveness improvement studies
- Prepare test documentation such as test requirements, test plans, test reports, and test schedules

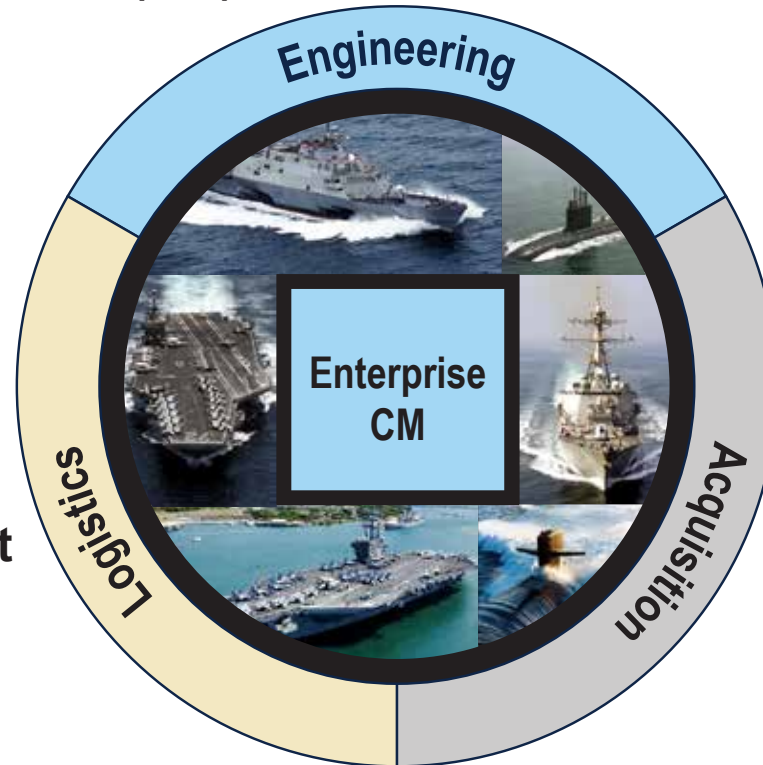

- **Documentation Management**
  - Develop reports, publications, Technical Notes, and Concept papers
  - Develop and produce presentations in support of systems engineering efforts
- **System Training**
  - Development of a training curriculum (e.g. software and (documentation)
  - Address training issues and architecture
- **Data Management**
  - System requirements tracing from high-level specifications through design, code, and test

# Configuration Management

- **System Configuration Management (CM)**
- **CM Management (CMM)**
- **Configuration Identification**
- **Change Control**
- **Configuration Audits**
- **Configuration Status Accounting**
- **Engineering Data Management**
  - Configuration Documentation Administration
  - Tools Expertise

# Information Assurance Services

- **DIACAP / PIT / NIST Certification and Accreditation / Testing / Validation**
- **Cybersecurity Risk Management**
- **Technical Enterprise Architecture Security Solutions**
- **Network Security Assessment**
- **Business Continuity and Disaster Recovery Planning**
- **Network Vulnerability Analysis**
- **Penetration Testing**
- **Information Assurance Vulnerability Management (IAVM)**
- **Risk Assessments / Vulnerability Analysis**
- **Cybersecurity Incident Response Support**

- **Database Design and Development**
  - Oracle and SQL expertise
  - Business process and information flow analysis
  - Data warehousing environments
  - Secure web-based front-end
- **Data Integration**
  - Complex data translation and data fusing
  - Legacy system migration
- **Reporting**
  - Intuitive user interface design
  - Ad-hoc reporting and query tools
- **Products**
  - Advanced Configuration Control and Engineering Status System (ACCESS) for NSWCCD
  - Product Data Tracker (PDT) for Tomahawk
  - Retrofit Upgrade Installation Database (RUGID) for Tomahawk

# Qualifying Integrated Logistics Services

Products / Services	Years
Instructor Led US Military Curriculum	28
Instructor Led FMS Military Curriculum	21
Interactive Multimedia Instruction	23
Interactive Electronic Tech Manuals	25

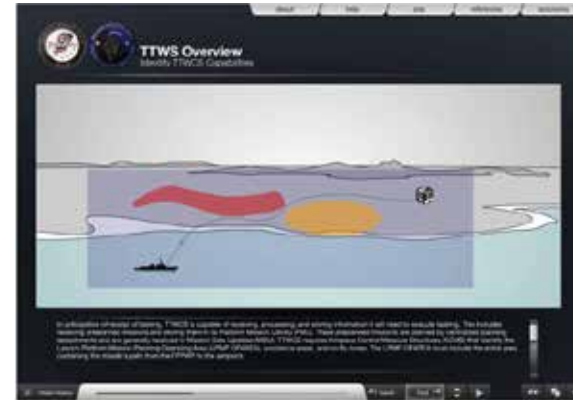

- **Curriculum Development**
  - Needs assessment
  - Instructional media package development
- **Instructional Delivery**
  - Classroom
  - Laboratory
  - Shipboard
- **Expert Instructors**
  - Degrees in Workforce and Adult Education
  - Master Training Specialist designations
  - Extensive military experience

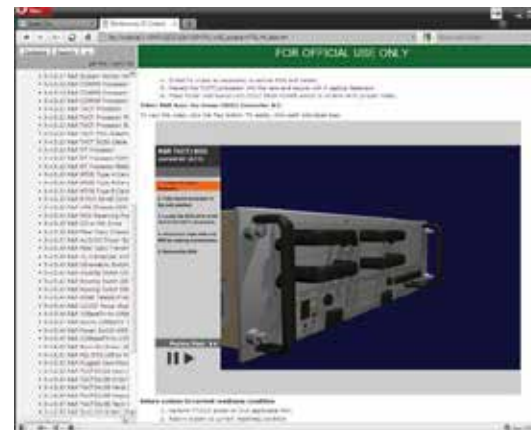

# Interactive Multimedia Instruction

- **Instructional Media Design**
  - Front-End Analysis (FEA)
  - Interactive Courseware (ICW)
  - Multimedia Tutorials (MMTs)
- **Learning Management Systems**
  - Web-based or hosted locally
  - Trainee progress tracking
  - Online reviews
- **SCORM Compliant Content**
- **508 Compliant Content**
- **Navy-Marine Corps Intranet (NMC) Compliant Content**

**Develop and maintain IMI for the US Navy Tomahawk Weapons Control System and US Army Project Manager Mission Command**

- **Source Data Collection and Management**
- **On-Line and Stand-Along Electronic Documentation**
  - System level documentation, detailed procedures and context sensitive help
- **Open Architecture Design**
  - HTML / XML
  - Portable to variety of hardware and software platforms
  - Extensive software toolkit
  - Interactive 3D graphics/procedures

# Contract Vehicles

## Prime Contractor

- NAVSEA SeaPort-e
  - Prime in all seven zones
- Naval Air Warfare Center - Training Development Products
- GSA OASIS
- State of Texas
  - DIR Web Dev and Mgt

# Points of Contact

## Corporate Office

Frederick, MD (301) 695-5311

**Ed Jackson**  
President

[ejackson@teamscci.com](mailto:ejackson@teamscci.com)

**Mike Fiedler**  
Director of Contracts

[mfiedler@teamscci.com](mailto:mfiedler@teamscci.com)

## Systems Engineering Division

Dahlgren, VA (540) 644-2200

**Dan Crowl**  
Vice President / Division Manager

[dcrowl@teamscci.com](mailto:dcrowl@teamscci.com)

## Integrated Logistics Services Division

Austin, TX (512) 794-0033

**Al White**  
Division Manager

[alwhite@teamscci.com](mailto:alwhite@teamscci.com)
